DONELLI

CORROSION PROTECTION
APPLICATIONS SINCE 1911

COATINGS, LININGS, FIRE PROTECTION and INSULATION for INDUSTRIAL PLANTS, ENERGY, BUILDING CONSTRUCTION and SHIPYARD/OFFSHORE

www.donelli.it

Passive fire protection

intumescent based system

pre-cast removable protection

cementitious based systems

LPG tanks and spheres

passive fire proofing flexible jackets

cable protection

protection of prefabricated structures

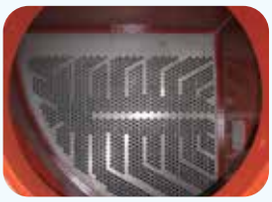
Approved applicator of: Chartek (Akzo Nobel - International Paint), Thermo-lag and Pyrocrete (Carboline), Pitt-Char NX (PPG), Firetex (Sherwin Willams), Fendolite (Cafco), Jotachar (Jotun)

Power generation and transmission

FGD ducts lining

scaffolding-free maintenance

cold applied tapes



tubesheet and water box renovation

secondary containment protection

concrete rehabilitation

repairs on 3LPE

tank bottom rehabilitation

TSA / TSZ

elastomeric membrane waterproofing

UHPWJ maintenance works

heat exchangers inspections

Hydropower industry

Dedicated brochure available

maintenance of metal structures

automatic internal blasting and lining

external coating in confined space

water dam maintenance

automatic external UHP water jetting

Offshore

Donelli leverages on a team of OPITO/BOSIET
qualified applicators and inspectors and offshore siutable equipment

scaffolding

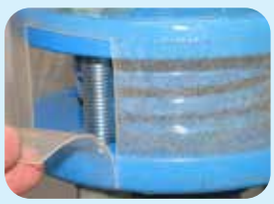
field joint coating

riser mantenance

riser coating

HVAC insulation

UHPWJ maintenance works



flange encapsulation with Metaline

hydro-blasting with non metallic water soluble media

helideck anti-skid coating

flare maintanance

Insulation

Metal cladding is pre-fabricated with numerical control machines and rapidly installed on-site

piping

insulation and fire-proofing system of vessels

tanks

Food and wine industry

Dedicated brochure available

The Group is olso capable of supplying turn-key renovation projects for stores and factory outlet

sales point restyling

concrete pools

internal lining with food grade coating

industrial flooring

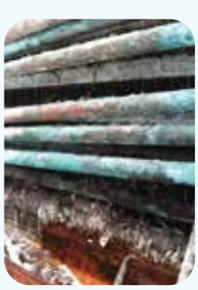
antibacterial coating of HVAC equipment

HVAC market

Impresa Donelli is the Italian licensee for Blygold and Thermoguard technologies and solutions for energy saving

casing coating

piping and fittings coating



failure analysis and customized testing

anticorrosion coating

environment friendly coil dry cleaning

HVAC maintenance

Specialized in shop applications

internal lining of vessels

high temperture coatings

semi-automated cold tape application

coatings for ATEX and C5 environment

refurbishment of heavy pitted surface

TSA / TSZ

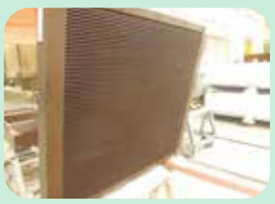
stainless steel glass blasting

passive fire proofing before erection

aestetic finish of facades

Heat cured coatings

Donelli Alexo is the Italian licensee for Säkaphen and applicator of Heresite technologies and solutions



MCHX

lining of proover

shell&tube heat exchangers

water-box and distributors lining

rotor coating

ISO / DNV tanks services

finned pack air coolers & heat exchangers

Valves, actuators and fittings externals

Dedicated brochure available

cold thermal insulation and fire proofing

high temperature services

FBE + flame spray PP and PE systems

polyurethane systems for deep sea service

epoxy based systems for buried service

epoxy based systems for subsea service

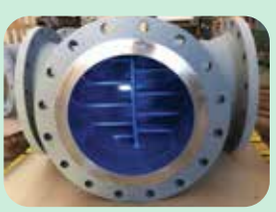
polyurethane systems for buried service

Valves and fitting internals

Dedicated brochure available

remachinable lining

FBE (fusion bonded epoxy)



food grade lining

Building construction

cellulosic
fire proofing

commercial building
finishing

office building maintenance
and renovation

infrastructure
maintenance

restoration of facades
with rampant bridges

sport facilities
maintenance

carbon fiber structural
reinforcement

maintenance and energy
saving enhancement

artistic
restoration

insulation of facades

Automotive industry

cataphoresis tank
lining

cataphoresis tank
maintenance

maintenance
air treatment unit

Consultancy

R & D projects

technical training
and publications

internal laboratory
testing

coating specification
preparation

testing with
AMPP/NACE, FROSIO &
CORRODERE inspectors

HSE services

safety marking

tank light reflectance
assessment

anti-skid properties
assessment

PED/Welding assistance

temperature
indicating paints

Coatings, Linings, Fire Protection and Insulation for Industrial Plants, Energy, Building Construction and Shipyard/Offshore

Since 1911, Donelli Group's **mission** is to **protect** (i.e. against corrosion, fire) and enhance the value of any asset (i.e. industrial sites, petrochemical plants, power generation facilities, offshore platforms, buildings and civil engineering projects)

- **Core business** applications include **anti-corrosion coating** and lining, passive fire protection, insulation, anti-acid, waterproofing and consultancy services in this field;
- **Coating and maintenance works** are carried out both in state of the art painting shops, as well as on site (onshore and offshore), in Italy and abroad (recently in France, Spain, Bulgaria, Indonesia, Albania, Turkey), also with local partnership (Congo, Saudi Arabia, Mozambique);
- A **distinctive skill** is the ability to rapidly **establish local partnerships** and initiate projects in **new markets**;
- **Diversification** in adjacent markets has led the company to successfully develop competences to carry out **artistic restoration projects** and **civil works**;
- All applications are carried out by **ACQPA trained personnel (41)** under the supervision of **certified NACE(17), FROSIO(7) and CORRODERE(1) inspectors;** this ensures **schedule fulfillment** as well as **compliance** with environmental, qualitative and safety standards.

2025 Group consolidated figures: turnover € 60m, employees 320

IMPRESA DONELLI S.r.l.

Headquarters key distinctive factors:

- Penstocks and water dam renovation
- Technologies and solutions for HVAC/R market
- FGD duct anticorrosion and anti-acid lining
- Artistic restoration and energy efficiency in buildings

Ravenna key distinctive factors:

- Offshore maintenance with Bosiet/OPITO certifications
- Prefabrication and installation of insulation works
- Passive fire proofing of new structures

Certification:

ISO 14001 SGS · ISO 45001 SGS · ISO 9001 SGS

SOA Certification

for Italian public procurement:
OS7 – VI OG1 – II OG2 – III Bis

Italian Licensee of:

Blygold ITALIA · THERMOGUARD Coil Coating Casing Coating Coil Reconditioning

Member of: GEPI Groupement des Entrepreneurs de Peinture Industrielle · ANIMP Associazione Nazionale di Impiantistica Industriale

Qualification: OHGPI

DONELLI ALEXO S.r.l.

Key distinctive factors:

- FBE and liquid coatings for fittings
- Heat cured applications and TSA/TSZ
- Composites coating for aerospace industry (ISO 9100)
- Management of clients coating facilities

Italian licensee of: SÄKAPHEN Approved partner of: HERESITE PROTECTIVE COATINGS

Member of: LE2C LOMBARDY ENERGY CLEANTECH CLUSTER

Certification:

Qualification: OHGPI, AMPP QP3, Quali Steel Coat License n. E-721

DONELLI Sh.p.k.

Donelli sh.p.k has been incorporated in 2008 to allow Donell Group to serve its clients with operations and projects in Albania. It is now an established player in the Balkans providing surface preparation, anticorrosion applications, insulation services and specialty coatings in Albania and the surrounding countries, a painting shop at Durres port is also under construction.
+355 694019799 - shpk@donelli.it

DONELLI MOZAMBIQUE L.D.A.

Donelli Mozambique is an indigenous company established in Maputo in 2015 to support in Mozambique and the SADC region companies dedicated to energy production and transmission as well as to Oil & Gas. The first completed projects are in hydroelectric sector.
